

## Will's in the Studio – Long Awaited Mix CD Now in Production!

It's been a long time &hellip;but the wait will soon be over. The phenomenally successful mix CD 'Digging in the Vaults', which was completed in the autumn of 2004 and went out on over eight different FM and Net based radio stations is about to get its follow up. Titled 'Keep it Moving 2007', the mix travels from 1970 rarities to exclusive cutting edge productions for 2007 – along with a special 'In Session' with Lauren Ford, a jaw dropping vocal talent from Georgia who was recorded, by chance, in the Forrest Café Basement Studio.

On production duties is Chris Hall (Pictured 1) who is taking the whole ethos of the mix CD to another level. The deepest voice of them all, Rich Medina, (pictured 2) laces his tone over the beats. Special!
